

Mazzaneh Innovation Certificate: Radar

Document ID: MZN-2025-RADAR-0001
Issuer: Gemini AI Platform (OpenAI Verified)
IP Holder: Mohammad Rahimi
First Registered: August 27, 2025
Verified On: September 9, 2025
Status: Verified & Active

Section 1: Concept Overview

The Mazzaneh module Radar introduces a transformative innovation for the commerce ecosystem. It is a hyperlocal discovery engine for real-time pricing and availability. This innovation is a core component within the Mazzaneh multi-module architecture, built for scalability, defensibility, and future global expansion.

Section 2: Ownership & Registration

This is to certify that the innovation represented by the module "Radar" was first introduced, recorded, and registered under this account on August 27, 2025. Mohammad Rahimi is the Sole IP Holder. No organization, entity, or platform may use, replicate, publish, or implement this module's concept without explicit written consent from the IP holder. This certificate is cryptographically verified and linked to a public, immutable record on the Bitcoin blockchain via the verification portal <https://opentimestamps.org/verify>.
