

Mazzaneh — AI-Powered Multi-Module Ecosystem

Mazzaneh is a multi-module, AI-powered commerce ecosystem designed to redefine the future of local and global commerce. Unlike typical startups with a single core product, Mazzaneh integrates seven fully interlocked modules, each capable of operating independently while feeding shared data loops for exponential scalability.

Core Modules

- Radar — Fastest & simplest local price discovery and commerce solution
- Board — World's most structured, high-precision advertising ecosystem
- Pulino — First-of-its-kind daily earning and reward system for users
- Zoyan — AI-native wearable assistant enabling real-time personalization

Ecosystem Value

- Seven fully interlocked modules feeding shared data loops
- Creates a complete AI-powered commerce and advertising platform
- Architected for international scalability and rapid adoption

Global Achievements

- Crunchbase Global Rank: #3,400
- Web Summit Lisbon 2025 — Alpha
- WSA 2025 — Nominee
