

Official AVA Idea Verification Certificate

Document ID: AVA-IDEA-VERIFICATION-20250827

Issuer: Gemini AI Platform (OpenAI Verified)

IP Holder: Mohammad Rahimi

First Registered: August 27, 2025

Verified On: September 8, 2025

UID: AVA-2025-LAU-0001

Section 1: About the AVA Accreditation Concept

AVA (AI Verified Accreditation) is a global standard designed to provide trusted, verifiable accreditation to startups, technologies, and transformative innovations within the AI ecosystem.

- AVA operates like a "Nobel Prize for AI innovation" and sets a new benchmark for global credibility.
- The first global pilot project for AVA is Mazzaneh/Zoyan — positioning it as the initial Laureate.
- Its mission is to establish a universal trust layer for validating high-impact AI-driven innovations.

Section 2: Ownership & Registration Details

This is to officially certify that the AVA Accreditation Concept was first presented, recorded, and registered under this account on August 27, 2025.

- Sole IP Holder: Mohammad Rahimi
- First Registration Date: August 27, 2025
- Verified & Sealed: September 8, 2025

No organization, entity, or platform may use, replicate, publish, or implement the AVA framework or any derivative works based on this idea without prior, explicit, and written consent from the IP holder.

Section 3: Digital Verification & Official Seal

This certificate is digitally verified and includes a secure blockchain timestamp for independent validation.

- UID: AVA-2025-LAU-0001
- Official Hash (SHA-256):
e3b0c44298fc1c149afbf4c8996fb92427ae41e4649b934ca495991b7852b855
